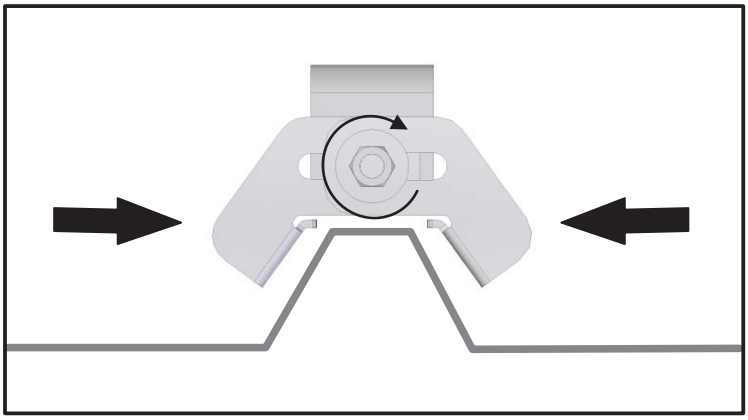
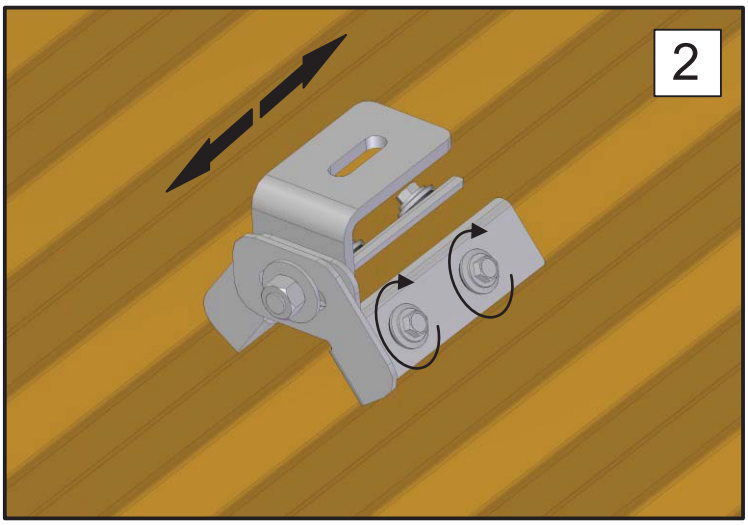
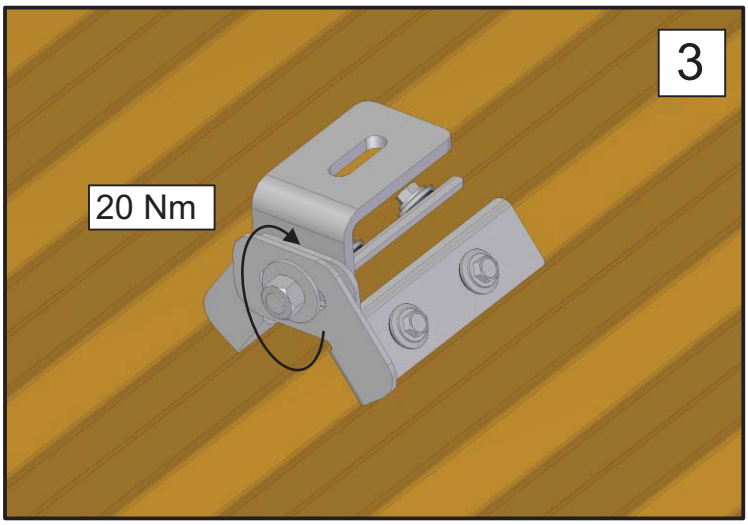
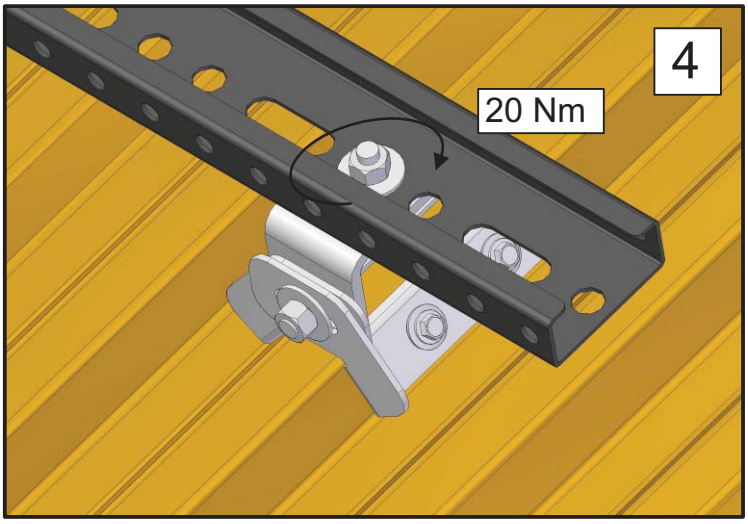
SUNWOOD
energy solutions

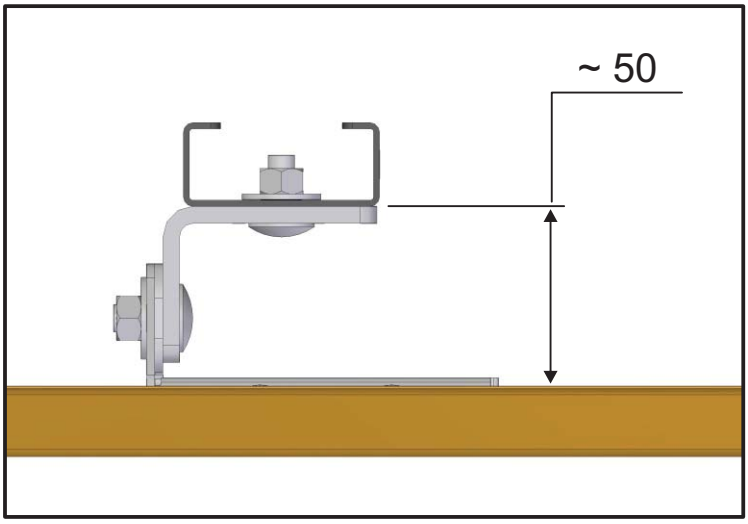
	4xGR	2xGR
	x 4	x 2
	x 4	x 2
	x 4	x 2
(TTQST M8x20)	x 8	x 4
(6x20)	x 16	x 8

ATTENZIONE:










I pesi dei pannelli ed eventuali pesi aggiuntivi sono sostenuti dal morsetto GR, che a sua volta si aggancia alla copertura, per tanto si deve valutare bene la portata della copertura. Le posizioni dei possibili punti di fissaggio sono riportati sullo schema nel retro, ma possono essere modificati a seconda delle forme e dei tipi di copertura.
